

Grinder Model:

EF-12SR

Common Applications:

Rippings
Cut-offs

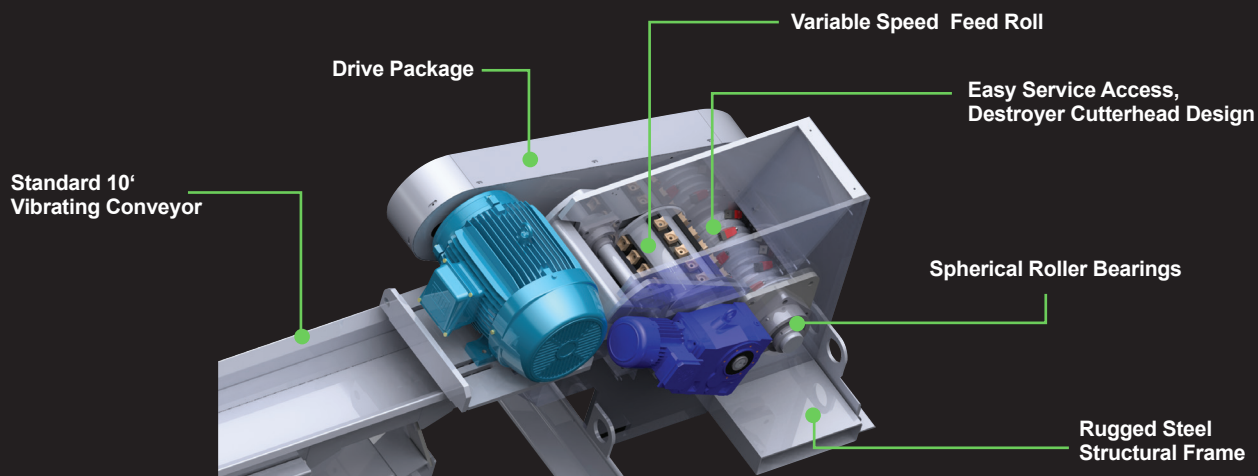

HARDWORKING AMERICAN-MADE MACHINERY

EVER > NEW
TECHNOLOGY

Cresswood's exclusive Ever New Technology allows for replacement of all key wear items to bring your machine back to like-new standards.

The EF-12SR is the most compact member of the Cresswood Destroyer Series product line. This machine will eliminate rippings and occasional blocks. This is the ideal wood grinder for furniture, cabinet, woodworking, and millwork shops. The small footprint and low profile design of this machine allow it to be placed in close proximity to the waste stream, which reduces material handling costs.
