HARDWORKING AMERICAN-MADE MACHINERY

EVERNEW
TECHNOLOGY

Cresswood's exclusive Ever New Technology allows for replacement of all key wear items to bring your machine back to like-new standards.

The EF-24SR, EF-36SR, and EF-48SR feature versatility that allows them to eliminate all wood waste generated by small band saws, re-saws, gang rip saws, plus have the added benefit of grinding blocks from chop saws. This family of Cresswood Destroyer grinders is ideal for furniture, cabinet, flooring, and woodworking companies. These adaptable machines can be used as dedicated zone-grinders for high speed panel saws or gang rip saws. The small footprints and low profile designs of these machines allow them to be placed in close proximity to the waste stream, which reduces material handling costs.
